

Application No. 09/836,989
Amendment dated April 14, 2006
Reply to Office Action of January 17, 2006

REMARKS

In the Office Action mailed January 17, 2006, the claims were rejected under 35 U.S.C. §102(e) given Kadaba U.S. Patent No. 6,889,194. Although the applicant does not agree with this finding of anticipation, for the sake of expedited prosecution, the applicant has amended or otherwise presents independent claims that now clearly specify that the articulated storage, change reception, and change sending capability corresponds to trucking and shipping information that comprises at least *two* or more of a diverse category of information specifically set forth as comprising freight bills, driver employment forms, pay settlements, fueling information, vehicle maintenance information, available freight hauling opportunities, and driver's logs. In addition to such other differences as have already been set forth, Kadaba clearly makes no provision for two or more such types of information.

The applicant therefore respectfully submits that claims 1-8 may be passed to allowance.

Respectfully submitted,

By:
